## PROGRAMMING -----

Programming will vary depending on access configuration. Follow the instructions according to your access configuration.

### GENERAL PROGRAMMING INFORMATION

> **User ID Number:** Assign a user ID number to the access code in order to keep track of the users of access PINS. The normal user ID can be any number from 0~989, and the 10 groups of visitors from 990-999.

IMPORTANT: User IDs do not have to be preceded with any leading zeros.

Recording of User ID is critical. Modifications to user data require either the card or the User ID be available.

> **Keypad PIN:** The PIN can be any 4~6 digits between 0000~999999
